

# How Bad Could It Be

The look on her face starring in space  
The doctors report came back bad  
They stood there and cried, husband by her side  
Asking for options they had  
He cried are you sure is there really no cure  
Is there nothing left you could try  
We've done all we can, its all in Gods hands  
When she looked in her darling eyes

How bad could it be I'm going to heaven  
Good-bye to sorrows, hello to old friends  
How bad could it be I'm finally with Jesus  
When they say it's over, it all just begins

Bridge

Hand in hand they walk down to the river  
Good-byes were said he stared toward heavens shore  
He thinks of all her joy she just met Jesus  
He cried God took my treasure and gave you your's
