How Bad Could It Be

The look on her face starring in space
The doctors report came back bad
They stood there and cried, husband by her side
Asking for options they had
He cried are you sure is there really no cure
Is there nothing left you could try
We’ve done all we can, its all in Gods hands
When she looked in her darling eyes

How bad could it be I’m going to heaven
Good-bye to sorrows, hello to old friends
How bad could it be I’m finally with Jesus
When they say it’s over, it all just begins

Bridge
Hand in hand they walk down to the river
Good-byes were said he stared toward heavens shore
He thinks of all her joy she just met Jesus
He cried God took my treasure and gave you your’s
